2019 - 2020

Bachelor in Computer Science
Qurtuba University
2021- currently studying

SKILLS

- Skilled in Flutter (Flutter_Bloc)
- Experienced with Firebase services
- Integrating API 'S
- Integrating Google Map
- Git / Github
- Knowledgeable in HTML, CSS, and GitHub

WORK EXPERIENCE

Summary:

I'm a skilled Flutter developer with experience in building mobile apps using Dart and Flutter. I'm good at making apps that work well on different devices. I can connect apps to the internet and use Firebase, a popular tool for this. I care about making apps that people enjoy using and I stay updated with the latest trends in app development. I work well in teams and pay attention to small details. My goal is to create creative and full-featured mobile apps

Flutter Developer at Rogpad Technologies,Delhi ,India
Projects:

1. **Work Chat App**(Desktop App): Workchat app for businesses using Flutter on desktop. This app helps people in companies talk and share information easily.
2. **PayHub App**(Desktop App): Users can manage and pay bills for multiple companies within a single application. The app should allow users to switch between different company profiles easily.

Flutter Developer at CodeMiners, Lahore
Projects:

1. **Lepo App** (Service Provider App): Developed an intuitive service provider app enabling easy bookings and transactions for various services.
2. **CarFlex** (Car Rent Project): Created a car rental application allowing users to rent vehicles and manage their bookings hassle-free.
3. **Estates** (Real States Booking): Contributed to the development of a real estate booking platform for users to explore and reserve properties.
4. **Chat Application** (WhatsApp Clone using Firebase): Developed a feature-rich WhatsApp clone with Firebase integration for seamless messaging and media sharing.

Achievements / Tasks:

- Created a responsive medical application using Flutter, employing Firebase Authentication for secure user logins.
- Implemented GetX and Media Query to ensure a user-friendly and adaptive design, facilitating doctor appointments.
- Developed an E-Commerce application with Flutter, utilizing APIs, JSON, and Firebase for efficient product management.

INTEREST

- Passionate about Computing and keeping up-to-date with the latest technologies.
- Enjoy traveling and exploring new places.
- Interested in watching anime.
